PROFILE

After ten years working as a professional chef in Spain and abroad, I decided to redirect my career toward my true passion: web development.
My training as a Higher Technician in Web Application Development and my experience in full-stack projects have allowed me to work with Angular and TypeScript on the frontend, and Java with Spring Boot on the backend, developing and deploying real production applications.
The discipline and high standards acquired during my previous career are reflected in the way I work: attention to detail, commitment to quality, and a strong collaborative mindset.
I am highly motivated to keep learning and improving, always delivering production-ready web applications.

PROFESSIONAL EXPERIENCE

Full Stack Developer – Internship Agencia Digital de Andalucía - ADA   **March 2025 - June 2025**

- Developed SessionTimer, a Java/Swing desktop application for monitoring and managing user sessions in Windows environments, deployed across all regional government offices of the Junta de Andalucía.
- Enhanced PEMA by implementing new features with Oracle APEX for IT procurement management, optimizing PL/SQL queries and contributing to both frontend and backend development.
- Participated in AI, CI/CD pipelines, and DevSecOps workshops, applying security best practices and automation using Jenkins and Git.

International Chef – Professional Kitchen   **October 2014 - September 2024**

Bibigo, The Cuban, Belle Vue, Jamie´s Bar (Londres), Alfonso XIII, Hotel TRH Alcora,Torre Sevilla, Muelle21, Circo del Sol gira España (España)

- Ten years of experience working in all types of kitchens, ensuring quality and performance under high-pressure environments.

FEATURED PROJECTS

MyOutfit
- Full-stack web application built with Spring Boot, Angular, and MySQL for managing and creating personal outfits.
- Implemented JWT-based authentication, full CRUD operations, outfit recommendation logic, and image upload/processing.
- Deployed with Docker to ensure scalability, portability, and streamlined environment consistency.

EDUCATION   September 2023 - June 2025

Higher Technician in Web Application Development – IES ALIXAR

TECHNICAL SKILLS

- **Frontend**: Angular, TypeScript, HTML5, CSS3, Tailwind CSS, Bootstrap, SASS, Node.js
- **Backend**: Java, Spring Boot, Spring Security, JWT, OAuth2, RESTful APIs, Microservices, Maven, JPA/Hibernate, JUnit, Mockito
- **Databases & Cloud:** MySQL, MariaDB, MongoDB, Oracle APEX, AWS (EC2, RDS)
- **DevOps e Infraestructure:** Docker, Docker Compose, Kubernetes, Jenkins, CI/CD pipelines, Nginx, Apache, Git, GitHub
- **Development Tools & Design:** IntelliJ IDEA, Visual Studio Code, Figma, Adobe Photoshop, WordPress

IDIOMAS Y CERTIFICACIONES

- Spanish: Native
- English: C1
- Taller DevSecOps & CI/CD pipelines, Agencia Digital de Andalucía (ADA), 2025
- AI & Software Engineering Sessions, ADA, 2025
- OpenWebinars, 2024 – Spring Framework, React, React Native, Bootstrap 5, Figma (UI Design)
- Gestión de Seguridad IT en la Empresa (IFCT050PO), FEMXA, 2022 – 100h
